AREA Science Park

A small city with many international research centers

SISSA

International School of Superior Studies (Neuroscience, Physics, Mathematics)

NEWS

An "unfocused" eye that sees the big picture / Planck helps to unveil the large-scale structure of the Universe

Designed to detect the fossil radiation of the Universe, the Planck satellite, working in

A new film explores the discovery and excitement young scientists are finding at the CAS-TWAS Centres of Excellence in Beijing. >

Investing in Caribbean science

The World Academy of Sciences

CAS-TWAS Centres: A world of excellence

Common threats, common solutions

Cultivating young physician leaders

OPPORTUNITIES

Fellowships

PhD and Postdoctoral Research fellowships are crucial for building scientific strength in developing countries.

Research Grants

Funding helps researchers in the developing world to purchase lab equipment and supplies.

Scientific Meetings

Grants support high-level international and regional scientific meetings in developing countries.
